## SAFETY PRECAUTIONS

- The items supplied with the device and any available accessories may vary depending on the region.
- The supplied items are designed only for this device and may not be compatible with other devices.
- Appearances and specifications are subject to change without prior notice.
- Additional accessories can be purchased from your local COPPERNIC retailer.
- Using unapproved accessories may cause performance issues and malfunctions that are not covered by the warranty.

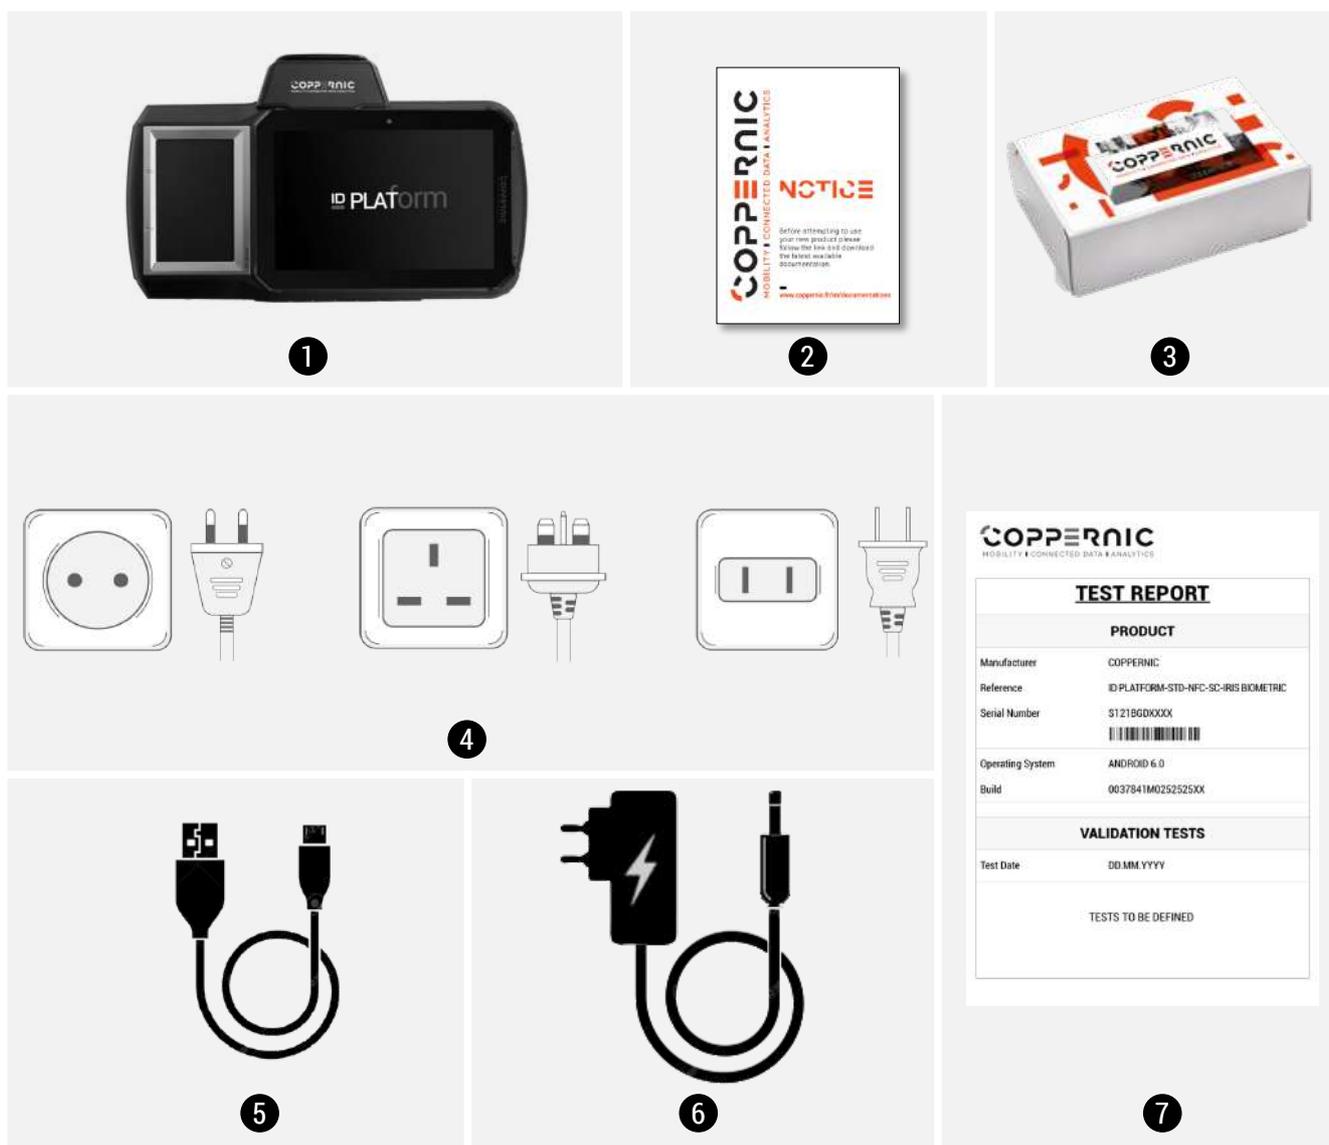

**AVAILABILITY OF ALL ACCESSORIES IS SUBJECT TO CHANGE.**

## TOUCHSCREEN RECOMMENDATIONS

ID PLATFORM IS EQUIPPED WITH A 5 POINTS MULTITOUCH GFF SENSOR TYPE.

- Do not allow the touchscreen to come into contact with other electrical devices
- Electrostatic discharges can cause the touchscreen to malfunction
- To avoid damaging the touchscreen, do not tap it with anything sharp or apply excessive pressure to it with your fingertips.
- The device may not recognize touch inputs close to the edges of the screen, which are outside of the touch input area
- It is recommended to use fingers or dedicated touch stylus when using the touchscreen

### Setting up your device

#### CAUTION

ID Platform FAP50 MRZ SC can accommodate only one type of removable battery.

#### Charge the BATTERY

- 12.600 mAh battery should be charged ONLY with the charger provided. Damage occurring when using another charger will not be covered by the warranty.
- Charge the battery using the COPPERNIC charger:
  - Insert the DC Power Jack plug into the ID Platform tablet as shown into the connector with the flat part facing up:

- Put the suitable country power adapter into plug.

#### Charge LED indicators

	Battery level > 90%	N/A
	Battery level 100%	N/A

#### Charging time

	Charge (%)	0 – 75%	75 – 100%
	Time (h)	2h	+ 2-3h

charge indicator

#### NOTES

- Battery charge is using QUALCOMM patented Quick charge algorithm.
- Charging current can be up to 5A but will depend on battery state of charge and device temperature. Hot environment or extensive operation may slow down the charge.

### Setting up your device

#### MICRO SD card installation

##### NOTE

Micro SD cards up to 256GB can be used with the ID Platform FAP50 MRZ SC (not included)

- To insert the Micro SD card, open the side door.
- Insert carefully the Micro SD card into the slot as shown with the gold contacts facing up.
- Insert the memory card all the way until you hear a locking sound.
- To remove the Micro SD card, push against the edge of the memory card and release it softly.

Micro SD card

## Setting up your device

### MICRO SIM card installation

- Switch off the tablet.
- To insert the Micro SIM card (SIM1), open the side door.
- Insert carefully the Micro SIM card into the slot as shown with the gold contacts facing up.
- Insert the Micro SIM card all the way until you hear a locking sound.
- To remove the Micro SIM card, push against the edge of the card and release it softly.

#### NOTE

The SAM slot could be used for a second SIM card (SIM2)

### Setting up your device

#### Audio

- Wired headset (microphone + stereo earpieces) can be used with the ID Platform FAP50 MRZ SC
- Headset with CTIA 3.5mm jack should be used
- ID Platform is also compatible with any type of wireless BT 4.x accessories

insert headset jack here

# ID Platform FAP50 MRZ SC

## Quick Start and Regulatory Guide

QSG 230252 A00

## Using your device

### TURNING ON | TURNING OFF your device

**Power On** | Press and hold during 3 sec. the power button.

**Power Off** | Press and hold during 3 sec. the power button and select "Power off" in the dialog box.

**Reboot** | Press and hold during 3 sec. the power button and select "Reboot" in the dialog window to restart the device.

**Suspend Mode** | Press and release the power button to place the device in suspend mode. The display will be off and go into a low power state to save battery power.

**Reset** | Press and hold the power button during 13 sec.

## USB Communication Management

The ID Platform FAP50 MRZ SC is equipped with **1x USB** communication port internally switched to manage different peripherals:

- USB Expansion (for FAP50, MRZ or SC peripheral)
- USB type A host connector
- USB type C for service port

The USB for internal peripherals and external USB-A are the USB lines with the high priority level. USB-C service port is not available when an internal peripheral or USB-A is turned on.

To manage the USB communication, please use the ConfigureDev application and enable/disable the required options:

USB 1 FAP50	USB 3 MRZ	USB 2 SC	USB type A	USB Type C
FAP50_USB1 ON	FAP50_USB1 OFF	FAP50_USB1 OFF	FAP50_USB1 OFF	FAP50_USB1 OFF
MRZ_USB3 OFF	MRZ_USB3 ON	MRZ_USB3 OFF	MRZ_USB3 OFF	MRZ_USB3 OFF
SCR_USB2 OFF	SCR_USB2 OFF	SCR_USB2 ON	SCR_USB2 OFF	SCR_USB2 OFF
USB_HOST OFF	USB_HOST OFF	USB_HOST OFF	USB_HOST OFF	USB_HOST OFF

# ID Platform FAP50 MRZ SC

## Quick Start and Regulatory Guide

QSG 230252 A00

### Using your device

#### DATA CAPTURE | photos & videos

Use the rear or the front camera to take photos and capture videos.

1. Go to Home Screen > select "Camera" > Tap camera icon or screen to take a picture/switch to video icon and tap for video recording.
2. Using the rear or the front camera to take photos and capture video.

#### NOTE

Ensure device memory or Micro SD card space is available.

#### DATA CAPTURE | NFC & biometrics

##### NFC & IRIS SCANNER (optional)

To read NFC card, please put the TAG/CARD on the NFC area.

Use dedicated application for iris identity enrolment. Use iris scanner on the back of the tablet to authenticate.

##### FINGERPRINT SENSOR

Please put the finger(s) on the fingerprint sensor taking care to make contact with the metal part.

#### NOTE

Fingerprint sensor is connected on the USB line for internal peripherals with the highest priority level. USB-C service port is not available when fingerprint sensor is turned on.

# ID Platform FAP50 MRZ SC

## Quick Start and Regulatory Guide

QSG 230252 A00

## Using your device

### BEST PRACTICE FOR READING RELIABLY

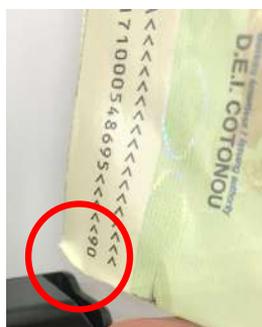

To do :

- Hold document still during read process.
- Ensure document is fully inserted inside the slot.

Do not do :

- Remove document until host application instructs you to do.
- Insert damaged or defaced documents on the reader.

# ID Platform FAP50 MRZ SC

## Quick Start and Regulatory Guide

QSG 230252 A00

### Using your device

#### CLEANING MRZ READER

- The reading window can be cleaned by inserting inside the slot a soft clean lint-free cloth.
- Remove the OCR accessory from the terminal and clean the glass window as showed in the picture below.

#### TROUBLE SHOOTING

Problem	Possible Cause	Solution
Persistent bad reads	The document is oriented incorrectly in the slot guide	Refer to Best practice for reading reliably section
	Dirty window	Refer to cleaning section
Persistently not reading	Bad connection between OCR and terminal	Check all mechanical connexion Refer to Check electrical connexion section
	Demo application not running on terminal or not working properly	Consult with support team

# ID Platform FAP50 MRZ SC

## Quick Start and Regulatory Guide

QSG 230252 A00

### Using your device

#### SMART CARD READER

1. Insert the card with the contact down.

2. Slide the card completely into the reader.

## A. MODEL DESCRIPTION

### A.1. GENERAL INFORMATION ON THE RADIO EQUIPMENT:

**Manufacturing country:** France  
**Brand:** COPPERNIC  
**Commercial designation:** COPPERNIC  
**Country of commercialization:** European Union  
**Radio service:** Bluetooth, WLAN 2.4GHz, RLAN 5GHz, SRD 5.8GHz, GSM, WCDMA, LTE, NFC and GPS RX.  
**Application:** ID Platform

#### A.1.1 TRADE VERSIONS/VARIANTS: ID Platform FAP50

### A.2. FEATURES: ID Platform

### A.3. SOFTWARE VERSION(S): Android 9

### A.4. HARDWARE VERSION(S): W006C V2.0

### A.5. OTHER COMPONENTS

- Disposable antenna YES  NO 
  - o Antenna gain (dBi)\*:  
(\* ) only in case of YES
- Battery packet (model, manufacturer, characteristics,...):
  - o Manufacturer: Dongguan Geelink Technology Co., Ltd.
  - o Model: BP01
  - o Specification: 3.8Vdc, 12600mAh, 47.88Wh
- External Power Adapter (model, manufacturer, characteristics,...):
  - o Manufacturer: Xinsu Global Electronic Co., Limited
  - o Model: XSG1202500
  - o Input: AC100-240V, 50/60Hz, 0.6A Max.
  - o Output: DC12V, 2.5A

*Ce certificat comporte deux annexes / This certificate includes two annexes.*

Toutes les modifications qui peuvent remettre en cause la conformité du produit aux exigences essentielles de la présente directive ou les conditions de validité du certificat devront nous être signifiées. Ces modifications peuvent nécessiter une nouvelle approbation sous la forme d'un complément au certificat initial / All modifications to the approved type that may affect the conformity of the radio equipment with the essential requirements of this Directive or the conditions for validity of that certificate shall be notified to us. Such modifications may require additional approval in the form of an addition to the original EU-type examination certificate.

## Quick Start and Regulatory Guide

QSG 230252 A00

### Annexe 1 / Annex 1

#### Listes des normes appliquées / List of applied standards

- Article 3.1

a) Santé et Sécurité / Health and Safety

Analyse de l'exigence non demandée / Assessment of the requirement not requested.

b) Compatibilité électromagnétique / Electromagnetic compatibility

Analyse de l'exigence non demandée / Assessment of the requirement not requested.

- Article 3.2 Utilisation efficace et optimisée du spectre / Effective and efficient use of spectrum

EN 300 328 V2.2.2 - Wideband transmission systems; Data transmission equipment operating in the 2,4 GHz band; Harmonised Standard for access to radio spectrum

EN 300 330 V2.1.1 - Short Range Devices (SRD); Radio equipment in the frequency range 9 kHz to 25 MHz and inductive loop systems in the frequency range 9 kHz to 30 MHz; Harmonised Standard covering the essential requirements of article 3.2 of Directive 2014/53/EU

EN 300 440 V2.1.1 - Short Range Devices (SRD); Radio equipment to be used in the 1 GHz to 40 GHz frequency range; Harmonised Standard covering the essential requirements of Article 3(2) of Directive 2014/53/EU

EN 300 440 V2.2.1 - Short Range Devices (SRD); Radio equipment to be used in the 1 GHz to 40 GHz frequency range; Harmonised Standard for access to radio spectrum

EN 301 511 V12.5.1 - Global System for Mobile communications (GSM); Mobile Stations (MS) equipment; Harmonised Standard covering the essential requirements of article 3.2 of Directive 2014/53/EU

EN 301 893 V2.1.1 - 5 GHz RLAN; Harmonised Standard covering the essential requirements of article 3.2 of Directive 2014/53/EU

EN 301 908-1 V15.2.1 - IMT cellular networks; Harmonised Standard for access to radio spectrum; Part 1: Introduction and common requirements; Release 15

EN 301 908-2 V13.1.1 - IMT cellular networks; Harmonised Standard for access to radio spectrum; Part 2: CDMA Direct Spread (UTRA FDD) User Equipment (UE)

EN 301 908-13 V13.2.1 - IMT cellular networks; Harmonised Standard for access to radio spectrum; Part 13: Evolved Universal Terrestrial Radio Access (E-UTRA) User Equipment (UE)

*Note: La conformité à la présente norme harmonisée ne confère pas de présomption de conformité à l'exigence essentielle énoncée à l'article 3, paragraphe 2, de la directive 2014/53/UE si, en appliquant la clause 4.2.2 de ladite norme harmonisée, des tolérances supérieures à 2 dB sont appliquées. Les tolérances utilisées lors de l'évaluation du produit sont cependant inférieures ou égales à 2 dB / Compliance with this harmonised standard does not confer a presumption of conformity to the essential requirement set out in Article 3(2) of Directive 2014/53/EU if, by applying clause 4.2.2 of this harmonised standard, tolerances greater than 2 dB are applied. The tolerances used during the evaluation of the product are however less than or equal to 2 dB.*

## Quick Start and Regulatory Guide

QSG 230252 A00

### CAUTION

Only use accessories tested and approved by COPPERNIC to ensure compliance with European standards. Operation of the device without regulatory approval is illegal.

## Wireless Device Country Approval

Regulatory markings, subject to certification, are applied to the device signifying the radio(s) are approved for use in the European countries under CE coverage.

For 2.4GHz or 5GHz products : Europe includes Austria, Belgium, Bulgaria, Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherland, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

## Country Roaming

This device incorporates the international roaming feature which will ensure the product operates on the correct channels for the particular country of use.

## Warnings of Use Wireless Devices

Please observe warning notices with regard to the usage of wireless devices.

### Potentially Hazardous Atmospheres – Vehicles Use

You are reminded of the need to observe restrictions on the use of radio devices in fuel depots, chemical plants etc. and areas where the air contains chemicals or particles (such as grain, dust, or metal powders) and any other area where you would normally be advised to turn off your vehicle engine.

### Safety in Aircraft

Turn off your wireless device whenever you are instructed to do so by airport or airline staff.

### Safety in Hospitals

Wireless devices transmit radio frequency energy and may affect medical electrical equipment. Wireless devices should be switched off whenever you are requested to do so in hospitals, clinics or healthcare facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

## Safety Information – Europe

This device was tested for typical body-worn operation. Use only COPPERNIC tested and approved accessories to ensure EU compliance.

## Quick Start and Regulatory Guide

QSG 230252 A00

## Battery Information

Use only COPPERNIC approved batteries.

When devices are stored over six (6) months without use, some irreversible deterioration in overall battery quality may occur. Store devices at half of full charge in a dry, cool place. When storing devices for one year or longer, the charge level of battery should be verified at least once a year and charged to half of full charge.

## Battery Safety

1. The area in which the units are charged should be clear of debris and combustible materials or chemicals. Particular care should be taken where the device is charged in a non-commercial environment.
2. Follow battery usage, storage, and charging guidelines found in the user guide.
3. Improper battery use may result in a fire, explosion, or other hazard.
4. To charge the device battery, the battery and charger temperature must be between 0°C~+45°C.
5. Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk of fire, explosion, leakage, or the hazard.
6. Do not disassemble or open, crush, bend or deform, puncture, or shred the device.
7. Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.
8. Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.
9. Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.
10. Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source. Do not place battery into a microwave oven or dryer.
11. Battery usage by children should be supervised.
12. Please follow local regulations to promptly dispose of used re-chargeable batteries.
13. Do not dispose of batteries in fire.
14. Seek medical advice immediately if a battery has been swallowed. In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice.

## Quick Start and Regulatory Guide

QSG 230252 A00

### Operating frequency

The use of 2.4 GHz RLAN's, for use through the EEA, have the following restrictions:

1. Maximum radiated transmit power of 100 mW EIRP in the frequency range 2.400 - 2.4835 GHz
2. France, outside usage is restricted to 2.4 - 2.454 GHz.
3. Italy requires a user license for outside usage. Bluetooth® Wireless Technology for use through the EEA has the following restrictions:
4. Maximum radiated transmit power of 100mW EIRP in the frequency range 2.400 -2.4835 GHz
5. France, outside usage is restricted to 10mW EIRP
6. Italy requires a user license for outside usage.
7. Ad-Hoc Operation (5GHz Band )

This device complies with **Directive 2014/53/EU** issued by the Commission of the European Community.
